

Hello everyone,

I hope you are all well, and are managing to make good use of the home learning tasks.

As it is the Easter holidays, we are not setting you learning from school, but you may fancy having a go at some tasks. You will already have realised that there are a lot of fun learning tasks and activities on various different websites. There are hundreds of different Easter or Spring themed activities on Twinkl, and I have copied some of them.

I do hope you will take the opportunity to relax, spend time with your family, playing some board games, or baking some Easter cakes or biscuits!

When I searched for Easter crafts there were lots that came up which would be easy to do, if you fancy being a little crafty during the holidays.

One example is:

25 Cute and Fun Easter crafts for Kids - Crazy Little Projects
crazylittleprojects.com

For those of you who really like a Maths challenge, have a go at the Mystery games which I have included. The "Reveal a picture" powerpoint has some tricky Maths questions - they got my head working!

Rest assured, we are thinking of you. Enjoy some sunshine we hope, and keep safe!

Love from
Mrs Martin
