

Squirrel Class

Spring 1: Moon Zoom

We hope you had a great holiday and are now rested and ready for a busy half term. On behalf of the team, thank you so much for the lovely gifts and treats we received - we felt very spoilt!

This topic has a science and technology focus. We will start by thinking about what is above our heads. Then progress to learn about the moon, planets, rockets and astronauts.

Children in reception will join in for some of these learning opportunities as well as covering their own content in line with the Early Years Foundation Stage requirements.

Homework Task for All

The homework task for this topic is to create something an astronaut might wear. You could dress up a teddy or doll as an astronaut (get that tin foil ready!) or you could choose to make something to be worn - such as a helmet.

Please make sure this homework comes in to school ready to show on Monday 14th February.

Reading

As always we ask that you support your child with reading the books we send home and please sign in the record book. Signing the book is important as this becomes part of our evidence of reading engagement. Frequent practice is vital for progress.

Books are changed on a Monday and Friday. There will also be additional books given at different points in line with their phonics learning. Please make sure these are read at home too.

P.E days

Thursday - P.E with Mr Rogers -outside - tracksuit trousers/leggings are strongly advised. Only school jumpers should be worn on P.E days

Friday - P.E with Mrs Pendle - inside - Gymnastics

Katie Pendle and team.
