

Year 2 Maths Home Learning – week beginning 13th July

Hello Everyone,

We've made it to the last week of term...and what a strange term it has been.

It was fantastic to add Evie and Oliver to our Wednesday morning group this week to solve another mystery with Elodie and Claudia

To make a change, I've chosen a maths mystery to solve at home all about a sandcastle competition where all of the castles are stamped on before the judges arrive! Can you solve the clues and work out who the 'stamper' is?

Well done to everybody for managing the home learning for so many weeks. It is going to be amazing to have everyone back to school in September and get back to classroom learning.

Have a wonderful week 😊 (Can't wait til Wednesday...there's a promise of cake for our snack!)

Love

Mrs Halfacree
