Week beg 30th March **Y3**	**Fractions** Hopefully you all now know that a fraction is a part of a whole. Your main focus this week is on unit and non-unit fractions. *A non-unit fraction (e.g. 2/4. 3/4) has a numerator greater than one.* *A unit fraction (e.g. ½. ¼, 1/10) has a numerator of 1.* **Task 1:** Can you create a poster showing a variety of unit and non-unit fractions, using items from around the house to display examples *e.g. 4 coloured pens, 3 of which are red- ¾ are red.* **Task 2:** Can you investigate the fraction of a food item found in a packet *e.g. in a tube of smarties, what fraction are red? green? etc. If there are 10 sweets in total, and 5 are red=5/10.* https://whiterosemaths.com/homelearning/year-3/ lesson one might be helpful	Times tables practise / game Username -boxgrove Password -one	Using your research from last week write a Kenning poem about a British Wildlife creature. A Kenning poem is a type of poetry that typically uses different two-word phrases to portray the characteristics of something. A spider, for example, might be described in a Kenning poem as an 'insect-spinner' or a 'door-crawler'. (use -er) What creature is this Kenning poem about? Paw licker Day dreamer Milk drinker Ball chaser Dog hater Mouse chaser Stroke lover Remember to collect words and build	Spag Mat 6 **gardening** **gardener** **limiting** **limited** **calendar** **caught** **centre**	Use two pages of a book you are reading. Write a list of some good word choices. Can you put 3 of these words into a sentence of your own.	Name the countries of Europe on a map. Choose a country anywhere in Europe to research. Find out about food, culture, temperature, flag etc You can use the support sheet if you would like.
